

## **If you are eligible for Driver Education, you must:**

1. Contact your local high school to enroll in either a traditional or online program or contact a private driving company.

2. Purchase a Driver Training permit at the [Department of Motor Vehicles \(DMV\)](#). **The permit must be purchased before the student participates in ANY instruction.** You will need these documents to purchase a permit:

- Proof of Age and Identity (Birth Certificate)
- Social Security Card or Number for Verification
- Proof of Residency
- Acceptable Lawful Presence Documents (if applicable)
- Visual/Medical Certification (if applicable)
- Liability Signer (if under 18)
- Verification of Compliance - VOC (if under 18)
  - Retrieve from your high school administrative office
  - If homeschooled, you must be enrolled in a home education program for at least one year prior to the VOC request ([Idaho Code 49-303A](#)).

3. Complete the program you have chosen. Students must pass both the classroom and in-car with at least an 80%. If a student fails, that purchased permit is no longer valid and a new one must be purchased to take another Driver Education course.
